

Pressure Infusion Bags

- Mesh back allows for easy visibility to fluids
- Clear back bags have wider profile for larger IV bags and allow users to scan barcodes through the clear backing
- Integrated hook at top of bag to attach to IV pole
- Plastic retention hook inside pouch to hang IV bag
- Oval shaped bulb for easy one hand inflation
- 3-way stopcock closure
- Disposable, single patient use
- Color coded pressure gauge displays pressure and protects against overinflating
- Not made with natural rubber latex
