Expect Quality

## THE PRODUCT SOLUTION

Choosing the right Face Protection products is an important process. First consider the use, and then what features will be best for your staff. Please consult the following pages for details specific to each product line.

# PremierPro™

# ASTM STANDARDS

The American Society for Testing and Materials (ASTM) is an international standards organization that sets the guidelines for face mask protection in North America known as ASTM F2100. By meeting these standards with all our PremierPro™ Surgical and Isolation Masks, you can be sure your protection is our top priority.

PremierPro™ Surgical and Isolation Masks are offered in levels 1, 2, and 3, with 3 being the highest level of protection. The current standards for face masks set out the following five protection criteria a mask must meet in order to be recognized as a 'rated' mask.

-  **Fluid Resistance** - resistance of penetration to synthetic blood at one of three levels of protection (80 mm Hg, 120 mm Hg, 160 mm Hg).
-  **Bacterial Filtration Efficiency (BFE)** - filtration ability when challenged with an aerosol that contains bacteria 3.0 microns in size
-  **Particle Filtration Efficiency (PFE)** - filtration ability when challenged with sub-micron particulate matter 0.1 microns in size, representative of viruses
-  **Delta P** - air flow from one side of the mask to the other to assess breathability
-  **Flammability** - masks must meet Class 1 flame resistance requirements

ASTM F2100: LEVEL 1 BARRIER  
80 mm Hg FLUID RESISTANCE

IDEAL FOR EVERYDAY USE OR WHERE THERE IS LOW RISK OF EXPOSURE TO SPRAY OR SPLASH.

ASTM F2100: LEVEL 2 BARRIER  
120 mm Hg FLUID RESISTANCE

SUITABLE FOR PROCEDURES WITH A MODERATE RISK OF EXPOSURE TO SPRAY OR SPLASH.

ASTM F2100: LEVEL 3 BARRIER  
160 mm Hg FLUID RESISTANCE

HIGHEST PROTECTION AVAILABLE. BEST FOR USE WHEN RISK OF EXPOSURE TO SPRAY OR SPLASH IS HIGH OR UNKNOWN.

MORE PROTECTION

Low Fluid

Light to Moderate

Moderate to High

Bacterial Filtration Efficiency (BFE) at 3.0 micron (ASTM F2101)	≥ 95%	≥ 98%	≥ 98%
Particulate Filtration Efficiency (PFE) at 0.1 micron (ASTM F2299)	≥ 95%	≥ 98%	≥ 98%
Differential Pressure (ΔP), mm H <sub>2</sub> O/cm <sup>2</sup> (MIL-M-36954C)	< 5.0	< 6.0	< 6.0
Fluid Resistance (mmHg)	≥ 80 mm Hg	≥ 120 mm Hg	≥ 160 mmHg
Flammability Rating (16 CFR part 1610)	Class 1		

# PROCEDURE MASKS

Product feature: PremierPro™ Earloop Procedure Mask, ASTM Level 1, Blue

# PROCEDURE MASKS

## 2453 - Earloop Procedure Mask

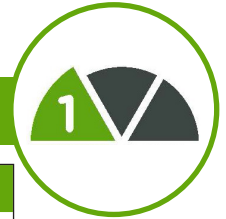

- Ideal for low fluid exposure procedures
- Extra soft ear loops with optimum stretch provide a comfortable fit
- Premium aluminum nosepiece provides an excellent fit
- Ultrasonically welded seams for added protection

Color	Packaging
Blue	50 EA/BX; 6 BX/CS

Procedure Earloop

## 2454 - Earloop Procedure Mask

- Ideal for low fluid exposure procedures
- Extra soft ear loops with optimum stretch provide a comfortable fit
- Premium aluminum nosepiece provides an excellent fit
- Ultrasonically welded seams for added protection

Color	Packaging
Yellow	50 EA/BX; 6 BX/CS

Procedure Earloop

## 2497 - MRI Safe Earloop Procedure Mask

- Ideal for use during MRI procedures
- Complies with FDA safety recommendations
- Plastic nose bar
- Ultrasonically welded seams for added protection

Color	Packaging
Blue	50 EA/BX; 6 BX/CS

Procedure Earloop

MRI Safe

## 2450 - Earloop Procedure Mask with Anti-Fog Foam

- Ideal for high fluid exposure procedures and clinician protection during the flu season
- Soft anti-fog foam helps prevent fogging of glasses and other eyewear
- Extra soft ear loops with optimal stretch provide a comfortable fit
- Premium aluminum nosepiece provides an excellent fit
- Ultrasonically welded seams for added protection

Color	Packaging
Sea Blue	50 EA/BX; 10 BX/CS

Procedure Earloop

Anti-Fog

## 2451 - Earloop Procedure Mask with Anti-Fog Foam & Visor

- Ideal for high fluid exposure procedures and clinician protection during the flu season
- Provides convenient "all-in-one" protection with the integrated anti-fog foam & visor
- Premium aluminum nosepiece provides an excellent fit
- Ultrasonically welded seams for added protection

Color	Packaging
Sea Blue	25 EA/BX; 4 BX/CS

Procedure Earloop

Visor

# SURGICAL TIE MASKS

Product feature: PremierPro™ Surgical Tie Mask with Anti Fog Foam,  
Anti-Fog & Anti-Glare Visor, ASTM Level 3, Sea Blue

# SURGICAL TIE MASKS

## 2460 - Surgical Tie Mask

- Ideal for low fluid exposure procedures in the OR.
- Extra soft, long, and flexible ties provide ultimate comfort and a tailored fit
- Premium aluminum nosepiece provides an excellent fit
- Ultrasonically welded seams for added protection

Color	Packaging
Light Blue	50 EA/BX; 6 BX/CS

## 2461 - Surgical Tie Mask with Horizontal Ties

- Ideal for low fluid exposure procedures in the OR.
- Extra soft, horizontally-oriented, long ties provide ultimate comfort and a tailored fit
- Premium aluminum nosepiece provides an excellent fit
- Ultrasonically welded seams for added protection

Color	Packaging
Gray	50 EA/BX; 6 BX/CS

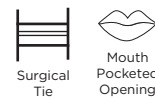

## 2462 - Surgical Tie Mask with Soft Bill

- Ideal for low fluid exposure procedures in the OR.
- Soft bill provides added structure
- Extra soft, long, and flexible ties provide ultimate comfort and a tailored fit
- Premium aluminum nosepiece provides an excellent fit
- Ultrasonically welded seams for added protection

Color	Packaging
Light Blue	50 EA/BX; 6 BX/CS

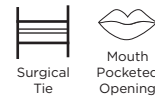

## 2463 - Surgical Tie Mask with Large Soft Bill

- Ideal for low fluid exposure procedures in the OR.
- Large soft bill provides added structure
- Extra soft, long, and flexible ties provide ultimate comfort and a tailored fit
- Premium aluminum nosepiece provides an excellent fit
- Ultrasonically welded seams for added protection

Color	Packaging
Green	50 EA/BX; 6 BX/CS

## 2464 - Surgical Tie Mask with Anti-Fog Foam

- Ideal for low fluid exposure procedures in the OR.
- Soft anti-fog foam helps prevent fogging of glasses and other eyewear
- Extra soft, long, and flexible ties provide ultimate comfort and a tailored fit
- Premium aluminum nosepiece provides an excellent fit
- Ultrasonically welded seams for added protection

Color	Packaging
Denim Blue	50 EA/BX; 6 BX/CS

# SURGICAL TIE MASKS

## 2465 - Surgical Tie Mask with Anti-Fog Film

- Ideal for low fluid exposure procedures
- Thin film strips on the inner and outer layers trap moisture generated during use
- Extra soft, long, and flexible ties provide ultimate comfort and a tailored fit
- Premium aluminum nosepiece provides an excellent fit
- Ultrasonically welded seams for added protection

Color	Packaging
Green	50 EA/BX; 6 BX/CS

## 2466 - Surgical Tie Mask with Anti-Fog Tape

- Ideal for low fluid exposure procedures in the OR.
- Adhesive mesh strip acts as a barrier to moisture by creating a "seal"
- Extra soft, long, and flexible ties provide ultimate comfort and a tailored fit
- Premium aluminum nosepiece provides an excellent fit
- Ultrasonically welded seams for added protection

Color	Packaging
Green	50 EA/BX; 6 BX/CS

## 2470 - Surgical Tie Mask with Soft Lining

- Ideal for low fluid exposure procedures in the OR.
- Super smooth, soft, and dye-free materials make this mask perfect for clinicians with sensitive skin
- Extra soft, long, and flexible ties provide ultimate comfort and a tailored fit
- Premium aluminum nosepiece provides an excellent fit
- Ultrasonically welded seams for added protection

Color	Packaging
White	50 EA/BX; 6 BX/CS

## 2472 - Surgical Tie Mask with Anti-Fog Foam & Soft Lining

- Ideal for low fluid exposure procedures in the OR.
- Soft anti-fog foam helps prevent fogging of glasses and other eyewear
- Super smooth, soft, and dye-free materials make this mask perfect for sensitive skin
- Extra soft, long, and flexible ties provide ultimate comfort and a tailored fit
- Premium aluminum nosepiece provides an excellent fit
- Ultrasonically welded seams for added protection

Color	Packaging
White	50 EA/BX; 6 BX/CS

## 2467 - Surgical Tie Mask with Anti-Fog Foam

- Ideal for high fluid exposure procedures in the OR.
- Soft anti-fog foam helps prevent fogging of glasses and other eyewear
- Extra soft, long, and flexible ties provide ultimate comfort and a tailored fit
- Premium aluminum nosepiece provides an excellent fit
- Ultrasonically welded seams for added protection

Color	Packaging
Sea Blue	50 EA/BX; 6 BX/CS

# SURGICAL TIE MASKS

## 2471 - Surgical Tie Mask with Large Soft Bill & Soft Lining

- Ideal for high fluid exposure procedures in the OR.
- Large soft bill provides added structure
- Super smooth, soft, and dye-free materials make this mask perfect for sensitive skin
- Extra soft, long, and flexible ties provide ultimate comfort and a tailored fit
- Premium aluminum nosepiece provides an excellent fit
- Ultrasonically welded seams for added protection

Color	Packaging
White	50 EA/BX; 6 BX/CS

## 2480 - Surgical Tie Mask with Anti-Fog Foam & Visor

- Ideal for high fluid exposure procedures in the OR.
- Soft anti-fog foam helps prevent fogging of glasses and other eyewear
- Visor has periphery wings to protect users from both head-on and broadside fluid exposure
- Extra soft, long, and flexible ties provide ultimate comfort and a tailored fit
- Premium aluminum nosepiece supports the visor for minimal movement during use
- Ultrasonically welded seams for added protection

Color	Packaging
Sea Blue	25 EA/BX; 4 BX/CS

## 2481 - Surgical Tie Mask with Anti-Fog Foam & Anti-Fog/Glare Visor

- Ideal for high fluid exposure procedures in the OR.
- Soft anti-fog foam helps prevent fogging of glasses and other eyewear
- Visor has periphery wings to protect users from both head-on and broadside fluid exposure while minimizing glares
- Extra soft, long, and flexible ties provide ultimate comfort and a tailored fit
- Premium aluminum nosepiece supports the visor for minimal movement during use
- Ultrasonically welded seams for added protection

Color	Packaging
Sea Blue	25 EA/BX; 4 BX/CS

## 2492 - Surgical Tie Laser Mask

- Ideal for high fluid exposure procedures in the OR.
- May be used for laser procedures in which surgical smoke is generated
- Soft anti-fog foam helps prevent fogging of glasses and other eyewear
- Extra soft, long, and flexible ties provide ultimate comfort and a tailored fit
- Premium aluminum nosepiece provides an excellent fit
- Ultrasonically welded seams for added protection

Color	Packaging
Gray	50 EA/BX; 6 BX/CS
