

BlueLine™

Disposable Air Lateral Transfer Mats

Versatile

- All-in-one solution for patients' lateral transfer, turns, boosts, and repositioning.
- Available in short mats (48") and long mats (78").
- Designed to safely accommodate patients weighing up to 900 lbs on short mats and up to 1,000 lbs on long mats.
- Color-coded straps allow quick identification of mat size and style.
- Non-woven breathable surface allows for patient to remain comfortable while on the mat.

Patient & Clinician Friendly

- Two caregivers can perform transfer with ease which improves staff efficiency.
- Disposable single patient use which can help lower the risk of cross-contamination in facility.
- Helps improve patient's comfort and dignity.

Short Mat 48"

Convenient

- Uses a cushion of air that enables caregivers to safely transfer patients without lifting or straining.
- Non-woven breathable surface with dual colors in bright green to aid in proper placement of the patient.

Long Mat 78"
