

## INCREASE REPROCESSING SAVINGS - CONVERT TO AN EP FOCUSED PROGRAM

S2S Global partners with Innovative Health, an advanced specialty reprocessing company, to offer **BlueLine™ Reprocessing Services** with prices exclusive to Premier members. BlueLine™ Reprocessing Services **guarantees 20%+ savings\***.

Hospitals can now access increased savings with more value via our electrophysiology (EP) focused reprocessing program. Electrophysiology is driving opportunities in reprocessing, and a dedicated EP reprocessing program can produce savings that far exceed an ordinary, restricted reprocessing program.

### WHAT MAKES INNOVATIVE HEALTH DIFFERENT?

#### Simple conversion and guaranteed extra savings:

- **20% GUARANTEED SAVINGS** over prior reprocessing program\*
- **Commitment to Cardiology** - Our focus is where you can save the most
- **Strong R&D Focus** - New 510(k) clearances to push the boundaries of reprocessing
- **OM Independent** - Sole focus on maximizing reprocessing savings
- **Optimized Reprocessing Savings** - Innovative Health's dedicated team increase savings by optimizing collections and buy-back of devices

#### Innovative Health breaking records in FDA clearances

Innovative Health has received 34 FDA 510(k) clearances to reprocess new devices since March, 2016. Other EP reprocessors have received 2-4 clearances since that time. More clearances translate directly to higher savings.

#### FDA CLEARANCES TO REPROCESS EP CATHETERS

Source: U.S. Food & Drug Administration (FDA) 510(k) Clearances [[www.fda.gov](http://www.fda.gov)].

\* Pursuant to a written agreement between Innovative Health and Premier member facility/system; terms and conditions apply.
