

PRODUCT BRAND TRANSITION NOTIFICATION

PremierPro / PrestigePro to BlueLine™

Date	July 25, 2026
To	S2S Global Members, Customers, and Distribution Partners
Subject	Initial shipment of BlueLine-branded product and associated GTIN change

S2S Global is beginning the planned transition of products historically distributed under the **PremierPro and PrestigePro** brands to our new **BlueLine™** brand. As legacy-branded inventory is depleted, S2S Global will begin fulfilling orders with BlueLine-branded inventory for the same S2S Global SKU.

Product continuity: The product, approved specifications, quality requirements, and associated contract manufacturer have not changed. The change is limited to the brand name and corresponding product labeling and packaging artwork.

Affected Product and Identification Change – See attached table on next page

What This Means for Your Organization

- Continue ordering the product using the existing S2S Global SKU shown below.
- Update item-master, GTIN, barcode-scanning, EDI, and other applicable systems to recognize the new BlueLine™ GTIN.
- Continue using any remaining PremierPro- or PrestigePro-branded inventory; the legacy-branded and BlueLine-branded product may be used interchangeably for the same S2S Global SKU.
- During the transition, shipments may include legacy-branded product, BlueLine-branded product, or both, depending on available inventory at the fulfilling distribution center.

No change to product performance or quality is expected as a result of this brand transition. Existing purchase orders do not need to be reissued solely because of the brand or GTIN change, unless required by your internal procedures.

Acknowledgment and Questions

Please share this notification with the appropriate supply chain, procurement, materials management, item-master, EDI, and accounts payable personnel within your organization. Receipt of this notice may be acknowledged by replying to the transmitting email.

Questions: Contact S2S Global Customer Service at orders@s2s-global.com or **855-531-7699**.

Affected Product and Identification Change

Anticipated first BlueLine shipment date: [25JUL2026 / UPON DEPLETION OF LEGACY INVENTORY]
